

Overview

Social entrepreneurship is about creating business models that revolves around developing accessible products and services that reduces the social, cultural and environmental inequalities. Social entrepreneurs generally have non-profit goals and work with the motive of a positive return to the society. Social entrepreneurs have covered various areas like poverty alleviation, health care and even technology & networking. This field has gained tremendous ground in the emerging markets over the last decade and India is no exception to it. Social Entrepreneurship in Indian context can be viewed from two angles: one who strive to work with policy makers to bring a social change and others who find an opportunity to develop a business model that has been less explored by government and in the process fill the gap.

This course focuses on the issues social entrepreneur need to address, the ways a social entrepreneur creates a social capital, the knowledge and skills needed by him/her and developing a sustainable model for a social enterprise. It is all about “Doing well on the ground”.

Foreign Faculty – Dr. Anthony Jensen

Dr. Anthony Jensen is a Conjoint Lecturer at the Business School, University of Newcastle, Australia and has been involved in researching, campaigning and publishing on worker co-operatives for many years demonstrating their effectiveness as social enterprises. His publication "Insolvency, Employee Rights and Employee Buyouts" was a foundational text at the 2017 Conference on Worker Buyouts held by the Greek Government in Athens.

As joint editor of the 2017 book "Co-operative Enterprises in Australia and Italy" he developed a deep first hand appreciation of the benefits of cross national country co-operative research and its potential to influence government policy. This led to the founding of the Asia Pacific Co-operative Research Partnership in 2014 which now has partner universities in eleven countries dedicated to comparative research to facilitate poverty eradication through community enterprise and Asian regional integration. He teaches business ethics and corporate social responsibility.
