## INTERACTIONS WITH ALUMNI-Alumni Reunion

## Article from Alumni for Department Magazine

BMSCE will be home, the Department of Computer Science will be its heart for me. It has given me so many memories – from friends to professors, who not only taught me Computer Science but also some great values.

The teachers taught effortlessly and catered to our ‘last minute exam doubts’ even without a frown. Barely any scope is left as everything happens here - from academic projects, to publishing papers and taking us to industrial visits. Not only is the hard work appreciated but it is also recognized and used. As a student, I had developed a website for the internal use of the department teachers. It feels great to dwell upon the fact that they are using it.

It is due to these reasons that I can proudly say that I am placed in one of the best companies (not to mention that it is most sought for among engineering graduates in Bangalore), Nutanix Technologies.

As an alumnus, I would like to wish the budding engineers all the luck and hope that they will continue to do their Alma mater proud.
